

NOW HIRING

TRANSLOAD OPERATOR (Tulsa, OK)

Are you ready for an exciting career with a fast growing transportation company?

Position Summary

Perform specified tasks at a transload facility to meet safety, quality, and efficiency goals while supporting the policies and objectives of the Company. Commodities may include (not limited to) petroleum products, agricultural products, building materials, aggregates (sand, rock, etc.) and chemicals. The successful candidate must be safety focused, detail oriented, and self-motivated.

- Safely load and unload (i.e. transload”) various commodities between truck, rail, and storage as required at a particular facility
- Safely operate various types of equipment (i.e. rail car movers, tractors, etc.)
- Inspect and trouble shoot equipment; perform minor repairs and routine maintenance of equipment
- Report orally and in writing as required; maintain accurate records (i.e. activity, inventory, incidents, violations, maintenance, etc.)
- Safely direct truck drivers to proper lading/unloading areas, operate truck scale and prepare/distribute truck Bills of Ladings
- Participate in general raining, job specific training and hazardous materials training as required; successfully complete written examinations
- Follow all Company policies and procedures pertaining to job function and equipment operation/maintenance, including any and all rules governing safety
- Exercise and enforce facility-specific policies, procedures and safety rules
- Participate in keeping the facility and equipment clean and maintained
- Monitor third parties performing work at the facility
- Participate in the set-up of new facilities and equipment
- Recommend changes to the operation which may produce safer work processes, savings and efficiencies
- Performs other duties as requested or assigned
